SUMMARY

Software Developer and Software Engineering student with experience building full-stack applications using Angular and Spring Boot. Skilled in REST APIs, responsive front-end development, and deploying applications using Docker and AWS. Strong foundation in object-oriented programming, software architecture, and cloud computing, with multiple industry certifications supporting practical skills.

EDUCATION

Bachelor of Science in Software Engineering

western governors university

Focused on full-stack development, software architecture, and cloud-based applications.

01/2024 – 05/2026

Millcreek, UT

SKILLS

- Java
- Spring Boot
- Git
- RESTful APIs
- Angular
- Bootstrap
- Docker
- AWS
- Maven
- Object-Oriented Programming (OOP)
- TypeScript
- MySQL

CERTIFICATES

ITIL® 4 Foundation

PeopleCert — Issued Mar 2026 · Expires Mar 2029

CompTIA Project+

CompTIA Issued Jan 2026 · Expires Jan 2029

Amazon Web Services Cloud Practitioner

Amazon Issued Nov 2025 · Expires Nov 2028

Google IT Support Specialization

Google Issued Nov 2023

PROJECTS

Full-Stack Capstone Project

Full-stack web application built using Angular and Spring Boot. Designed and implemented a RESTful API backend with a responsive Angular frontend. Containerized the application using Docker and deployed it on AWS EC2 to simulate a production environment.

Tech: Angular, Spring Boot, Docker, AWS EC2, REST APIs
